

# FOR GREATER PEACE OF MIND

Take a few minutes to make sure your savings are accessed only by those **you** want.

Southeastern Freight Lines Retirement Savings Program

## MULTI-FACTOR AUTHENTICATION

Your account security is a top priority, and T. Rowe Price offers a way you can make it even stronger: **Multi-Factor Authentication (MFA)**. If you haven't already, consider adding this important security layer in just a few short steps. Here's how it works:

- 1** You enter your login credentials
- 2** T. Rowe Price sends you a code
- 3** You enter the code, giving you access to your account

This simple process helps to ensure that you are the person trying to access your account.

## BENEFICIARY INFORMATION

While you're logged in to your account, name a beneficiary or verify your current beneficiary information so you can be sure your hard-earned money will go to the people you want in the event of your death.

**Designate a beneficiary**  
(if you haven't already)

**Periodically check for accurate and updated information**

**Remember: Account beneficiaries override wills and estate plans**

**We're here to help.** You can contact T. Rowe Price with questions about your plan or your account. Visit us online at [rps.troweprice.com](https://rps.troweprice.com). Or give us a call at **1-800-223-4055**.

Add MFA and check your beneficiary information at [rps.troweprice.com](https://rps.troweprice.com).
