The fund seeks to provide long-term capital growth.

Invest primarily in companies we expect to generate a majority of revenue from the development, advancement, and use of technology.

Focus on the common stocks of what we consider to be leading technology companies around the world.

Holdings can range from small, unseasoned companies developing new technologies to blue chip firms with established track records of developing and marketing technology.

The fund(s) may have other share classes available that offer different investment minimums and fees. See the prospectus for details.

Risks: Technology companies: Because the fund invests significantly in technology companies, the fund may perform poorly during a downturn in the technology industries. **International investing:** Non-U.S. securities tend to be more volatile and have lower overall liquidity than investments in U.S. securities and may lose value because of adverse local, political, social, or economic developments overseas, or due to changes in the exchange rates between foreign currencies and the U.S. dollar. See the prospectus for more detail on the fund's principal risks.

Morningstar rated the fund 2, 2, and 2 stars among 231, 201 and 155 Technology funds for the 3-, 5-, and 10-year periods (as applicable) ending 6/30/2024, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

Unless otherwise noted, index returns are shown with gross dividends reinvested. Fund Assets, holdings-based analytics (excluding portfolio turnover), and portfolio attribution are calculated using T. Rowe Price's internal Investment Book of Records (IBOR). Due to timing and accounting methodology differences, IBOR data may differ from the Accounting Book of Records (ABOR) data provided by the Fund's accountant. Diversification exhibits may not add to 100% due to exclusion or inclusion of cash. Certain numbers in this report may not equal stated totals due to rounding. Unless otherwise stated, data is as of the report date.

"Other" includes any categories not explicitly mentioned.
