Risks: Large-cap stocks: Securities issued by large-cap companies tend to be less volatile than securities issued by small- and mid-cap companies. However, large-cap companies may not be able to attain the high growth rates of successful small- and mid-cap companies, especially during strong economic periods, and may be unable to respond as quickly to competitive challenges. **Growth investing:** Growth stocks tend to be more volatile than certain other types of stocks and their prices may fluctuate more dramatically than the overall stock market. See the prospectus for more detail on the fund's principal risks.

Morningstar rated the fund 3 stars among 1,092 Large Growth funds for the 3-year period (as applicable) ending 6/30/2024, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history.
