Conversely, a decline in interest rates typically causes the price of a fixed rate debt instrument to rise and the yield to fall. **Municipal securities:** The fund may be highly impacted by events tied to the overall municipal securities markets, which can be very volatile and significantly affected by unfavorable legislative or political developments and adverse changes in the financial conditions of municipal securities issuers and the global, national, and/or local economies. **Taxes:** Some income may be subject to the federal alternative minimum tax. Capital gains, if any, are generally taxable. See the prospectus for more detail on the fund's principal risks.

Morningstar rated the fund 2, 3, and 3 stars among 208, 199 and 146 Muni National Short funds for the 3-, 5-, and 10-year periods (as applicable) ending 6/30/2024, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

Fund Assets, holdings-based analytics (excluding portfolio turnover), and portfolio attribution are calculated using T. Rowe Price's internal Investment Book of Records (IBOR). Due to timing and accounting methodology differences, IBOR data may differ from the Accounting Book of Records (ABOR) data provided by the Fund's accountant. Diversification exhibits may not add to 100% due to exclusion or inclusion of cash. Certain numbers in this report may not equal stated totals due to rounding. Unless otherwise stated, data is as of the report date.

"Other" includes any categories not explicitly mentioned.

T. Rowe Price uses a custom structure for sector and industry reporting for this product. Credit ratings for the securities held in the Fund are provided by Moody's, Standard & Poor's and Fitch and are converted to the Standard & Poor's nomenclature. A rating of "AAA" represents the highest-rated securities, and a rating of "D" represents the lowest-rated securities. If the rating agencies differ, the highest rating is applied to the security. If a rating is not available, the security is classified as Not Rated (NR). T. Rowe Price uses the rating of the underlying investment vehicle to determine the creditworthiness of credit default swaps and sovereign securities. The Fund is not rated by any agency. U.S. Government Agency securities, if any, may include conventional pass-through securities and collateralized mortgage obligations. This category may include rated and unrated securities.

Unless indicated otherwise the source of all data is T. Rowe Price.

The Top Guarantors excludes any Prerefunded or Escrowed holdings.
